Portfolio: sandusaranisenadeera.online

SUMMARY

Motivated recent graduate with a background in Quality Assurance and software testing, eager to apply strong testing skills and learn industry best practices to contribute and develop as a QA professional within a dynamic organization.

EDUCATION

Sri Lanka Institute of Information Technology – Malabe

BSc (Hons) in Information Technology

Information Technology (Oct 2023 - Reading)

St.Joesph's Girls' School - Nugegoda

Advanced Level Completed In Biology Stream

Biology | Jan 2018 - Jan 2020

PROJECTS

ONLINE BANKING SYSTEM TESTING (NEXATRUST BANK)

- Tested core functionalities of the banking application using both manual and automated test cases.
- Created and ran automated test cases of critical user flows using Playwright.
- Conducted functional, regression, and negative tests of the application.

Tools Used – Playwright, Jira, Manual Testing

SINGLISH TRANSLATER (PixelSuite)

- Manual and automatic testing was performed to confirm the accuracy of translation and functionality of the application.
- Negative test cases were created to find defects in the system.

Tools Used – Playwright, Manual Testing

POSTMAN AUTOMATION TESTING

- Carried out API test suites through Postman for RESTful GET and POST APIs.
- Verified API requests, responses, status code, and data integrity.
- Streamlined API testing processes to enhance efficiency and consistency of tests.

Tools Used – Postman

FRONTEND DEVELOPMENTS

Personal portfolio

- Created a responsive personal portfolio website using Next.js for displaying project work, technical skills, projects, and contact details.
- Used modern UI components and made performance improvements to create better user experience.

Tools Used – NextJS

Hospital Management System (Medi Care)

- Created a responsive web application for hospital management with functionality such as user authentication, appointment scheduling, virtual consultation, lab report, and pharmacy service.
- Designed an intuitive user interface by using HTML, CSS, and JavaScript according to responsive web design methodology.

Tools Used – HTML, CSS, JS

FULL-STACK DEVELOPMENT

Ticket Purchasing Management System - Event Handling System for University

- Created an event ticket management system for the university using Next.js and Neon DB.
- Integrated event management, ticket booking, and safe database connectivity features.
- Stressed on better user experience with responsive design and data handling.

Tools Used – Next JS, Neon DB

Ticket Incident Management - Smart University System

- Participated in building the ticket incident management application based on React and Spring Boot.
- Developed functionalities like incident reporting, tickets tracking, and status management.
- Combined front and back ends to manage issues effectively.

Tools Used – React, Spring Boot

MOBILE APPLICATION DEVELOPMENT

Daily Habit Tracker

- Created an Android application to enable users to manage their habits, mood, and hydration.
- Applied CRUD functionalities, progress tracking, notification system, and local data storage via Android Studio.

Tools Used – Android Studio, Kotlin

Power Up App

- Created a fitness app which allows the user to browse workout types, track their workout progress, and manage their fitness goals.
- The design is contemporary, with navigation, workout, and progress tracking capabilities.

SKILLS

Technical Skills

Testing

- Manual Testing
- Automation Testing
- API Testing
- Regression Testing
- Smoke Testing
- Functional Testing
- Exploratory Testing
- Test Case Design
- Bug Reporting

Testing Methodologies

- SDLC(Software Development Life Cycle)
- STLC (Software Testing Life Cycle)
- Agile Scrum
- Defect Life Cycle
- Test Planning

Tools

- Playwright
- Postman
- Jira
- Git
- Github

Programming

- JavaScript
- Java
- Python
- React
- SQL
- NextJS
- Spring Boot

Database

- MongoDB
- NeonDB
- MYSQL

Soft Skills

- Analytical Thinking
- Attention to detail
- Problem Solving
- Communication
- Team Collaboration
- Time Management

Achievements

- Developed personal portfolio Using Next.js
- Completed multiple QA Automation Projects
- Built Responsive Full-stack web applications
- Created API Automation using Postman Collections
- Published Projects on Github
